Instructions:

4" x 12" piece of Rich Razzleberry Cardstock

1. Score 4" x 12" piece of cardstock at 4" x 8"
2. Fold each side into the center
3. Score each side on the diagonal (both in the same direction)
4. Fold each diagonal away from you.
5. Decorate the triangles indicated with an arrow with half of the 3-3/4" x 3-3/4" (which was cut in half on the diagonal)
6. Tie off with ribbon and pull all the way to the right.
7. When adding the decorative panel to the front, only adhere it to one of the "triangles" (so your card will be able to open).
