

MAKE YOUR SANDWICH

FRAMELITS, EDGELITS & THINLITS

STANDARD DIES

Use a standard sandwich for open dies that cut only.

DETAILED DIES

Detailed dies require the Precision Base Plate, Big Shot Platform, and Thin Die Adapter for best results.

EMBOSSING DIES

Use an embossing sandwich with dies that add subtle embossing but do not cut.

TEXTURED IMPRESSIONS EMBOSSING FOLDER

STANDARD TEXTURED IMPRESSIONS EMBOSSING FOLDERS

Standard embossing folders are slim and require two Standard Cutting Pads.

3D DYNAMIC TEXTURED IMPRESSIONS EMBOSSING FOLDER

Dynamic embossing folders are thicker and create deeper embossed impressions than standard embossing folders. Run through Big Shot spine first. Use with only one Standard Cutting Pad.
