**When I see poinsettias, I know Christmas is coming soon.** They fill the house with color and joy! I designed this week's card using Stampin' Up!'s **Joyful Christmas** stamp set and the **Triple Time Stamping Technique** (just modified a little to a "double time"). It's easy to stamp, color and assemble, to help you with your holiday cardmaking!

### Supplies

#### Stamps:

Joyful Christmas (131802w or 131805c)

#### Paper:

121043 Sahara Sand Cardstock

119685 Cherry Cobbler Cardstock

#### Ink:

126966 Cherry Cobbler Classic Ink Pad

126972 Always Artichoke Classic Ink Pad

119677 Daffodil Delight Stampin' Write Marker

#### Other:

113439 Big Shot

127003 Apothecary Accents Framelits

102845 Blender Pen

119246 Rhinestone Jewel Accents

104332 Snail Adhesive

104330 Stampin' Dimensionals

## Instructions

1. Temporarily adhere two pieces of Sahara Sand cardstock together. **TIP:** I like to put just a couple small lines of adhesive in the center, as you'll be pulling them apart after the stamping - (4" x 5-1/4") & (2-3/4" x 4")
2. Stamp poinsettia image with Cherry Cobbler ink (yes, you'll be stamping on both pieces at the same time!)
3. Immediately use Blender Pen to "blend and move" color around. **TIP:** do not pick up ink from the inkpad. Instead, just "pull" color directly from stamped image using a circular motion with the blender pen.
4. Stamp leaf image with Always Artichoke ink.
5. Repeat step 3 for the leaves
6. Color flower center with Daffodil Delight Stampin' Write Marker
7. Gently pull apart the 2 stamped pieces of Sahara Sand cardstock
8. Fold (5-1/2" x 8-1/2") piece of Cherry Cobbler cardstock in half for the card base
9. Adhere the larger stamped/colored piece to the card base. **TIP:** be sure to adhere it in the proper orientation, so the next layer will line up correctly.
10. Adhere the smaller stamped/color piece to a (4-1/4" x 3") piece of Cherry Cobbler cardstock. Then adhere to the center of the card.
11. Stamp greeting with Always Artichoke onto (3" x 2") piece of Sahara Sand
12. Use Big Shot to die cut with Apothecary Accents Framelits
13. Die cut the same shape in Cherry Cobbler cardstock (3" x 2") - cut in half the long way
14. Adhere cut pieces to back of greeting
15. Add Rhinestones
16. Adhere to card with Stampin' Dimensionals
17. Enjoy!
