- One Great Year, December Kit 2015

Additional supplies used:

- Backer Board (cut cardboard piece from kit packaging to 2-1/4" x 3-1/4")
- 139163 Gold Metal Clip from past Paper Pumpkin kit, Filled With Love (still available for purchase)
- Acrylic 4" x 6" horizontal photo frame (found at Walmart)
- Sticky note pad (2": x 1-1/2")

Instructions:

1. Insert 4" x 6" decorative printed panel into the photo frame
2. Wrap 22" of gold twine around frame and tie in a bow (position right of center for now.)
3. Stamp "month" onto each calendar page
4. Cut a 2-1/4" x 3-1/4" piece of the "backer board" that comes in your kit (that's cardboard piece that is at the bottom of the shrink wrapped kit. Trim small triangle section off all four corners.
5. Clip entire stack of finished calendar pieces onto backer board with gold metal clip. Flip over and adhere "double stacked" Stampin' Dimensionals to the backer board. (Note: to double stack Dimensionals - place down one, then pull off backing and place another one on top of it.) This will allow enough room to be able to easily remove the clip when changing to the next month. Now adhere "clip piece" to photo frame (make sure the previously tied ribbon can still move freely.
6. Stamp "2016" onto banner die cut and adhere to frame with Stampin' Dimensionals. Slide twine/bow to inside the lower left corner of the banner. Adhere flower die cuts with Stampin' Dimensionals.
7. Attach Sticky Note Pad (should be able to just self-stick, but if it doesn't stay...use SNAIL adhesive for a little extra help)
8. See "make your own gift box" below, designed to fit the photo frame calendar
9. Enjoy!

Featured Paper Pumpkin Kit:

- One Great Year, December Kit 2015

Additional supplies used:

- 136714 Wish Big, past Paper Pumpkin Kit (still available for purchase)
- 100730 Whisper White Cardstock (2) 7-1/4" x 9-1/2"
- 122334 Simply Scored (or trimmer with scoring option)
- 134547 Gold Satin Ribbon
- 132137 1/8" Handheld Circle Punch
- 119868 1" Circle Punch

Instructions:

1. Score both pieces of 7-1/4" x 9-1/2" Whisper White cardstock as follows: with 7-1/4" side against top of score tool, score at 1-1/2" & 5-3/4". Turn and score at 1-1/2" & 8".
2. Fold both pieces on all four sides and cut on scored lines up to intersecting scored line on both pieces (red lines as shown on Gift Box Template on the next page) - plus cut a little more away...like a thin "V" into the corner pieces.
3. **Box Bottom:** assemble box putting adhesive on the outside of the corner pieces, fold them inwards, then fold up "end flap", lining up corners nice, straight and tight.
4. **Box Top:** use 1" punch and punch out a half circle from the 2 longer sides of the box (see photo). Assemble box putting adhesive on the outside of the corner pieces, fold them inwards, then fold up "end flap", **BUT INSTEAD** of making the corners "tight", match them up just a smidge looser (away from the edge corner of the box). This will make your box top slighter larger and should fit a little easier over the box bottom.
5. Decorate with ribbon & banner
6. Give to someone special for them to enjoy!
